V CONFERENCE OF ORTHOPEDICS AND VETERINARY SURGERY

PROGRAM

SATURDAY 22/03/2025 ORTHOPEDIC

9:00–9:30	Stimulation of forearm fracture healing in miniature breeds.	Dr Krzysztof Zdeb
9:30–10:00	Complications in fracture fixation.	Dr Philipp Schmierer
10:00–10:30	**Coffee break**	
10:30–11:00	Strategies to avoid complications in orthopedic surgery.	Dr Philipp Schmierer
11:00–11:30	Non-unions: how to avoid them.	Dr Lisa Piras
11:30–12:00	Radius ulna fracture fixation in small breed dogs: what can go wrong?	Dr Lisa Piras
12:00–12:30	**Coffee break**	
12:30–13:00	Technical errors in fracture fixation.	Dr Lisa Piras
13:00–13:30	Complications in joint stabilization.	Dr Philipp Schmierer
13:30–14:00	Complications in TPLOs.	Dr Philipp Schmierer
14:00–15:30	**Lunch & meetings with sponsors**	
15:30–16:00	Complications in elbow and stifle arthroscopy and how to avoid them?	Dr Jakub Kaczmarek
16:00–16:30	Complications in arthrodesis.	Dr Lisa Piras
16:30–17:00	Usual or unusual TPLO complication?	Dr Michał Gnus

SUNDAY 23/03/2025 ORTHOPEDIC

09:00–9:30	Biomechanical basics of complications in fracture healing.	Dr Krzysztof Zdeb
09:30–10:00	Elbow arthrodesis as a strategy technique to revise a failed elbow fracture repair	Dr Alan Danielski
10:00–10:30	**Coffee break**	
10:30–11:00	Concept of over-engineering in small animal orthopedics.	Dr Svetoslav Hristov
11:00–11:30	Fixation methods and complications in hip luxation.	Dr Svetoslav Hristov
11:30–12:00	A novel approach to humeral intercondylar fissure.	Dr Alan Danielski
12:00–12:30	**Coffee break**	
12:30–13:00	Taking the fear out of the proximal ulnar osteotomy: a practical approach.	Dr Alan Danielski
13:00–13:30	PGR & TRA in patella luxation.	Dr Svetoslav Hristov
13:30–14:00	Shoulder instability luxation.	Dr Jakub Kaczmarek
14:00–15:30	**Lunch & meetings with sponsors**	
15:30–16:00	Shoulder arthroscopy – how, when and why? Trauma included.	Dr Jakub Kaczmarek
16:00–16:30	Learning curve and complication in THR (Total Hip Replacement).	Dr Svetoslav Hristov

SATURDAY 22/03/2025 NEUROSURGERY

09:00–09:30	Neurolocalization and differential diagnosis of myelopathies	Prof. Marcin Wrzosek
09:30–10:00	Ventral slot – how to reduce complication?	Dr Svetoslav Hristov
10:00–10:30	**Coffee break**	
10:30–11:00	Non-compressive myelopathies, analysis based on clinical cases	Prof. Marcin Wrzosek
11:00–11:30	Non-compressive myelopathies part II	Prof. Marcin Wrzosek
11:30–12:00	Partial lateral corpectomy	Dr Svetoslav Hristov
12:00–12:30	**Coffee break**	
12:30–13:00	Decision making in vertebral fractures & luxations.	Dr Svetoslav Hristov
13:00–13:30	Compressive myelopathies, analysis based on clinical cases.	Prof. Marcin Wrzosek
13:30–14:00	Compressive myelopathies part II.	Prof. Marcin Wrzosek
14:00–15:30	**Lunch & meetings with sponsors**	
15:30–16:00	Use of pedicle screw rod system in spinal stabilization.	Dr Svetoslav Hristov
16:00–16:30	The role of 3d printing in spinal surgery.	Dr Svetoslav Hristov

SUNDAY 23/03/2025 SOFT TISSUE SURGERY

09:00–09:30	Minimal invasive urology with a laser: when, how, and which one makes sense?	Dr Joris de Swert
09:30–10:00	Endourology with lasers: clinical experience and cases.	Dr Joris de Swert
10:00–10:30	**Coffee break**	
10:30 11:00	Endourology with lasers: clinical experience and cases II.	Dr Joris de Swert
11:00–11:30	Liver surgery in dogs and cats: challenges, techniques and new approach.	Dr Rafał Kraszewski
11:30–12:00	Liver surgery in dogs and cats: laparoscopic procedures, use of ICG, use of staplers.	Dr Rafał Kraszewski
12:00–12:30	**Coffee break**	
12:30–13:00	Portosystemic shunt management	Dr Jan Frymus
13:00–13:30	Portosystemic shunt in dogs and cats: complications and prognosis.	Dr Jan Frymus
13:30–14:00	Update on portosystemic shunt.	Dr Jan Frymus
14:00–15:30	**Lunch & meetings with sponsors**	
15:30–16:00	Biliary surgery in dogs and cats: indications and surgical techniques, when to operate and how?	Dr Rafał Kraszewski
