Speakers

Dr. James Simcock

James graduated from the University of Melbourne with honors in 2005. Following graduation he worked for 12 months in a busy small animal general practice. He then completed two, twelve month internships in both Small Animal Oncology and Small Animal Surgery along with a 3 year American College of Veterinary Surgeons residency program under the direction of Dr. Charles Kuntz. In 2010 James achieved membership to the Australian College of Veterinary Scientists Internal Medicine Chapter.

In 2013 he became a Diplomate of the American College of Veterinary Surgeons by passing the certification examinations on his first attempt. This makes James one of the first fully Australian trained small animal surgeons to pass this examination. In 2015 James became a Diplomate of the European College of Veterinary Surgeons. James is registered as a specialist in small animal surgery in Victoria. He is an internship director and surgical residency advisor for the American College of Veterinary Surgeons.

James has published on gastrointestinal and urogenital surgery and oncology and has presented a number of times at the Australian College of Veterinary Scientists, Science Week. He is actively involved in teaching students and veterinarians and is an instructor and lecturer for a veterinary of post graduate education courses in surgery.

James has recently become further involved with the Australian College of Veterinary Scientists and is an examiner for the Fellowship examinations in Small Animal Surgery. Passing the College Fellowship exam is part of the requirements for registration as a Veterinary Specialist in Australia.

James is particularly interested in orthopaedic and neurologic surgery and is a co-director and owner of Southpaws alongside Dr. Charles Kuntz.

Dr. Luca Omodeo

Received degree in Veterinary Medicine in 2013 from the University of Turin with an experimental thesis titled "Evaluation of the effect of skeletal traction in femoral comminuted fractures in dogs: cadaveric study".
Is a certified referent since 2014 for two Italian Referral Centers for the evaluation of skeletal and joint diseases in dogs (hip dysplasia, elbow dysplasia, spondylosis deformans and patellar luxation).
Works as Free Lance orthopedic surgeon for different hospitals in Piedmont and Liguria areas in Italy.
Since 2016 consults with Intrauma as educational instructor and speaker to national and international courses and contracted as scientific consultation since 2017.
In August 2020 has started working for the group BlueVet, practicing as Ortopedist in the clinic ANUBI BluVet.
Speaks Italian, English and French.
Focus and interests are limb alignments, traumatology, biomechanics and locking implant clinical applications and partial joint prosthesis.
